Expertise: neural head avatars, strand-based hair reconstruction, human-centric 4D reconstruction, and 3D generation.

EXPERIENCE

Meta Reality Labs

Staff Research Scientist

Senior Research Scientist

Pittsburgh, United States

Aug 2026 – present

Feb 2025 – Jul 2026

- Tech lead of a five-person research pod working on human-centric 4D reconstruction.
- The pod's depth-estimation and body-fitting models run in Meta's production data and training pipelines.

ETH Zürich — AIT Lab (Prof. Otmar Hilliges)

Postdoctoral Researcher

Zürich, Switzerland

Jul 2023 – Feb 2025

- Strand-based hair reconstruction and generation.
- Collaborations on one-shot 3D head reenactment for VR telepresence.
- Day-to-day technical supervision of two PhD students.

Samsung AI Center

Lead Research Scientist (formal title: Lead Engineer)

Research Scientist (formal title: Engineer)

Moscow, Russia

Mar 2020 – Jun 2023

Sep 2018 – Feb 2020

- Led a team focused on neural head avatars and telepresence; hired and mentored its researchers.

EDUCATION

Skolkovo Institute of Science and Technology (Skoltech)

PhD, Computational and Data Science and Engineering (advisor: Prof. Victor Lempitsky)

MS, Data Science

Moscow, Russia

Nov 2018 – Apr 2023

2016 – 2018

Lomonosov Moscow State University (MSU)

BS, Applied Mathematics and Computer Science

Moscow, Russia

2011 – 2016
